\$40,000 CONDITIONS FOR THE MILL

Incidents in Society

Two Story Brick Building 300x36 for Offices and Store-
room—New Weave Shed 150x60 to Relieve Crowded
Conditions.

Because of crowded conditions at
their plant at the present time, the
J. R. Martin company, the twine
manufacturers of fine velvets, have de-
cided upon expensive additions to their
mill, to cost in the neighborhood of
\$40,000. The new two story new
buildings, for which Richard Torrance
of this city has been awarded the con-
tract, will increase the capacity of the
plant and will make the plant a model
one in many respects.

In front of the mill, where the road
to the station is at present, will be erected
a two story brick building, 300 feet
long by 36 wide. It will contain the

offices, the storeroom and the shipping
department. Work will be started
next Monday by Contractor Torrance,
and at the same time the road will be
moved south, as provided for at a spe-
cial meeting in August.

On the north, the excavating has al-
ready been started for a weave shed
of about 150 by 60 feet, on the north
side of the mill. The shed will be
moved to the new shed from the old
mill, where room will be given for
the winding and weaving machines,
if needed, by the change.

It is hoped to have both new build-
ings completed by January 1.

SILVER WEDDING
ANNIVERSARY OBSERVED.
Brilliant Social Affair at Home of Mr.
and Mrs. George W. Carroll.

The home of Mr. and Mrs. George W.
Carroll of Broadway was the scene of
a gay and brilliant social affair on
Friday evening, the twenty-fifth
anniversary of their marriage and the
date of the silver wedding. The
party was a large reception held from
8 to 11 o'clock. Mr. Carroll was as
pretty as a bride in his original wed-
ding gown of white satin with duchesse
and point lace yoke and trimming and
to which was added a most becoming
overdress of lace covered with tiny sil-
ver spangles. Her flowers were white
roses and lilies of the valley. The
same flowers were used by Mr. Carroll
and several of the original wedding
party who were also guests on the oc-
casion. Of these three of the former
ushers—Arthur T. Jacobs of Haverhill,
Mass., Adams P. Carroll and Arthur B.
Webb of Norwich—again officiated in
the same capacity. Mrs. John W.
Tinkler of Providence, Mrs. Carroll's
maid of honor, was another of this
party. The following ticket was nomi-
nated:

selectman, Warren P. Whitmarsh;
town clerk, Philip D. Palmer; treas-
urer, G. V. Shedd; collector, D. F. Bentley;

ond selectman, Fernando Wheeler, Ed-
ward McKnight; town agent, Fernando
Wheeler; agent town deposit fund,

counts, William C. Robinson; assess-
ment, one year, Edward H. Holdridge;

nest C. Cushman, Samuel E. Stewart,

Short Session at Sprague.
The democrats of the town of
Sprague met in the dime theater, in
Baltic Friday evening to nominate
candidates for the town officers for the
ensuing year. James E. O'Leary, the
chairman of the democratic town com-
mittee, called the meeting to order.
Thomas P. Curry was chosen mod-
erator and Thomas Miley clerk. A mo-
tion of Joseph T. Donovan, Raymond
J. Jodoin was nominated for first
selectman by acclamation. For second
selectman John C. Donovan was chosen

nated for town clerk and treasurer.

to fill out the balance of the ticket.
The caucus then adjourned.

MOTORMEN NOT ALL
THE SAME SIZE
Two-Foot Stools Hardly Allowed One
to See Out the Window—Pleasant
With Innovation, However.

That a stool 24 inches in height is
from four to six inches too short, is
the verdict turned in on Friday by the
motormen of the Connecticut company
who operate cars outside the city limits.
Inside the city limits the front-end
men have to stand as of old.

Early this week a trolley history
around Norwich, motormen on the
suburban lines of the Connecticut
company were permitted a seat while
on duty. Everything worked out
well, and all were pleased with the
innovation, yet all agreed that a
few inches added to the present height
of the stools provided would be an
improvement.

One motorman, who has a day run
on the Willimantic line, is of particu-
larly slight build, and on Friday morn-
ing he got hold of a car with a par-
ticularly high front. As the result, his
feet, seated on his 24-inch stool, were
to see any one ahead or to be seen
by anyone. The car seemed to be
running itself. This motorman, final-
ly solved the problem by buying at a
local store a high-chair of his own.

Another on the Central Village run
secured a cushion which made it just
about right. What is to be done about
the stools is not yet decided.
